**2022 SUMMER ISSUE**

### **Designing for the Dark**

TYM Home Technology Design envelops art and tech in one unconventional home theater highlighted by a handcrafted night sky. The team successfully designed a comfortable and thoughtful entertainment space using tech like Dolby Atmos and Savant.

### **Sailing the Seas with Tech**

A 143-ft.-yacht off the coast of Florida gets a major technology upgrade by Phoenix Systems. The yacht upgrades include full control with new Crestron system, shades, lighting, intercom system, televisions, and screens.

### **Multi-Million Dollar Condo Installation**

One Touch Media Designs guides us through the technology design and integration of a multimillion-dollar condo. The penthouse design showcases a pure example of how beauty and technology can align.

### **PLUS:**

#### **Bringing Technology Outside**

We look at products like outdoor speakers, lighting and more and how the demand for outdoor solutions is growing among consumers.

#### **E-Sports at Home Today**

Find out from the experts what is happening in the world of e-sports today, from the best residential tech to use in a gaming space at home to the evolution of the professional playing field.
