## 2023 SUMMER ISSUE

Take a tour of this extensive outdoor audio installation in a huge 3-acre garden as part of a whole-home integration solution in a small village in Essex, UK. The stunning period property has been refurbished by its owners into a magnificent, modern family home.

### ALSO IN THIS ISSUE:

#### **Sustainable Systems**

Building a modern home means using sustainable materials, as well as innovative strategies to create a discreet carbon footprint.

#### **Collaboration is Key**

In this feature, we'll detail some insights into how design teams work together to create beautiful spaces.

#### **Form Equals Function**

We'll examine the ways in which designers are balancing form and function to create spaces that are both beautiful and practical.

#### **Creating Spaces for All Ages**

Explore the principles of intergenerational design for creating spaces that work for everyone, from children to seniors.
